

NOTICE

(revised 4/22/14)

Pfizer, the manufacturer of Solu-Cortef®, in the convenient "acto-vials", has removed the preservatives from their product, so have been issued a new NDC number by the FDA. The number is **0009001103**.

This NDC number change has apparently made it difficult for pharmacies to find the product in their computer systems, with the result of their informing some adrenal insufficient patients that it is no longer available for prescription.

We have created this form to inform you and your pharmacy that the product is still available for prescription.

If your pharmacy is having trouble obtaining these products, please instruct them to call Pfizer's Customer Service at 1(800) 533-4535.

Other possible contact numbers for Pfizer are 1(800) 438-1985 or patient services at 1(888) 691-6813.

Please feel free to make copies of this notice and pass it on to your pharmacy/s. Maybe it will help you avoid the misunderstanding and resulting aggravation some other people have experienced.
